

Sheepdrove's Green Pledge

We are committed to recommending, supporting and promoting suppliers who are local wherever possible and ask all suppliers to support our green pledge.

We believe that couples can hold eco-friendly weddings here at Sheepdrove without sacrificing style, beauty or joy.

We strive to lessen our impact on the environment wherever we can and ask our partners and suppliers to join us in -

- Choosing local, seasonal and British wherever possible, whether for food, flowers or props
- Being mindful about waste by reusing and recycling
- Helping, guiding and supporting our couples to make sustainable choices
